Walk the shark loop and find all 10!

The approximately 1 mile shark loop takes
about 45-60 minutes.

Set off on your Shark Spotting adventure in Centennial Park at the dedication plaque by the Intergenerational Fountain (children's splash pad). Finding shark #1 will be easy from there because it is located in the park. Use the clues in this brochure to find all ten. Here's a hint: Pay attention to the words in all caps!

About the project

To mark Gulf Coast Community Foundation's 25th anniversary, the Foundation funded a permanent, interactive, family-friendly, public art installation and gifted it to the City of Venice in 2020. It features 10 bronze sculptures, each about 10 inches long of native species of living and prehistoric sharks, located throughout downtown Venice. The works of art were created by internationally known fine artists at Sarasota's Bronzart Foundry.
